

RAVI RANJAN MISHRA

Software Developer

✉ 013.raviranjana@gmail.com ☎ 9123196230 📍 Kadamkuan, Patna 🌐 [Linkedin](#) 🐙 [GitHub](#)

SUMMARY

Motivated and detail-oriented Software Developer with a strong foundation in Java, Data Structures & Algorithms, Object-Oriented Programming, and Full-Stack Web Development. Proficient in Java, JavaScript, React.js, Node.js, Express.js, MySQL, and MongoDB, with hands-on experience building scalable web applications and REST APIs. Completed a Web Development Internship at NIC, gaining practical experience in frontend and backend development. Passionate about problem-solving, continuous learning, and developing efficient, user-focused software solutions. Seeking an opportunity to contribute technical skills and grow as a Software Developer in a dynamic organization.

INTERNSHIP

Web Development Intern

09/2025 – 12/2025

[NIC \(National Informatics Center\)](#) 🌐

Patna, Bihar

- Developed responsive web pages using HTML, CSS, JavaScript
- Worked on backend using C# , Integrated MySQL database for user authentication and Data Store
- Gained hands-on experience in full-stack development.

EDUCATION

Master in Computer Application

08/2024 – 07/2026

LNCT University

Bhopal, M.P.

9.08 CGPA

Bachelor in Computer Application

05/2021 – 07/2024

A. N. College

Patna, Bihar

73.2%

12th

03/2020 – 03/2021

Patna Muslim High School

Patna, Bihar

TECHNICAL SKILLS

- Language :- Java(Core java, OOP, DSA), JavaScript, C, C++, C#
- Frontend :- HTML, CSS, React.js, Bootstrap
- Backend :- Node.js, Express.js, ASP.net, REST API, JWT Authentication, bcrypt
- Database :- MySQL, MongoDB
- Tools :- Git, GitHub, Vscode, Postman

CERTIFICATES

DSA with Java 🌐

Apna College | 2025

Internship 🌐

National Informatics Centre |
2025

Coding Competition 🌐

LNCT UNIVERSITY | 2025

ACADEMIC PROJECTS

Multi-Tool Calculator

Technologies : Java, Swing, OOP

- Developed a desktop-based Multi-Tool Calculator using Java.
- Integrated multiple utility tools into a single application for everyday calculations.
- Designed a simple, user-friendly, and interactive interface for better usability.
- Implemented accurate and efficient calculation logic using Core Java.
- Built the application exclusively for desktop environments.
- Improved user convenience by providing multiple calculation tools in one platform.

Hotel Review System

Technologies used : MongoDB, Express.js, React.js, Node.js, JWT Authentication, REST API, Git, GitHub

- Developed a Hotel Review System using the MERN Stack (MongoDB, Express.js, React.js, and Node.js).
- Enabled users to browse a list of hotels and view detailed information before booking or visiting.
- Implemented a secure authentication system where verified users can submit hotel reviews and ratings.
- Added a feedback feature that allows users to share their experiences and opinions about hotels.
- Designed a responsive and user-friendly interface for seamless navigation.
- Helps users make informed decisions by providing genuine reviews and ratings from verified users.

Local Rojgar

Technologies Used : JavaScript, Node.js, Express.js, MongoDB, React.js, EJS, HTML, CSS, Bootstrap, Git, GitHub.

- Developed a location-based job platform using the MERN Stack (MongoDB, Express.js, React.js/Frontend, Node.js).
- Enabled users to find nearby skilled workers such as electricians, plumbers, carpenters, and masons based on their location.
- Implemented secure user and worker authentication with separate registration and login modules.
- Integrated location-based search to display workers within a specified radius for quick and convenient hiring.
- Designed a responsive and user-friendly interface for seamless navigation across devices.
- Used MongoDB for data storage, REST APIs for communication, and Git/GitHub for version control.
